PROFESSIONAL SUMMARY

B.Tech CSE (3rd year) student with hands-on experience in SAP BTP, ABAP, OData services, and SAP Fiori/UI5. Skilled in developing responsive SAP applications and integrating frontend with backend services. Seeking an SAP internship to apply technical skills in real-world enterprise projects.

EDUCATION

Parul University, Vadodara	Bachelor's of Technology CGPA : 7.26	Ongoing
Modal higher secondary School, Sabalgarh	XII Mathematics Percentage : 76%	March 2023
New Horizon High School, Sabalgarh	X Percentage : 96%	March 2021

TECHNICAL SKILLS

Languages : Python, C, SAP ABAP, SAP Fiori/UI5
SAP BTP Skills : SAP BTP(Basic), SAP Fiori/UI5, SAP RAP Model(Managed), CDS, OData Model V2/V4, Cloud Foundry
SAP ABAP Skills : Reports(Basic), Smart Forms(Basic), DDIC
Tools : SAP BAS, Git Version Control, Fiori Launchpad, SAP BTP
Cloud and Concepts : Git, OOPs, DBMS, OS
Others :Agile Methodologies, Git, Debugging, Visual Studio Code

PROJECTS

SAP UI5 Interactive Form Application (SAP BTP) July 2026

- Built a responsive SAP UI5 application using MVC architecture for handling user inputs and interactions.
- Integrated data binding and event handling to process 15+ user interactions, improving form responsiveness and usability.
- Designed UI following SAP Fiori guidelines, reducing input errors by 20%.
- Deployed the application on SAP BTP (Cloud Foundry), ensuring successful build and execution with 100% functionality.

SAP FIORI|Automated Invoice generator July 2025

- Designed an invoice generation application using SAP Fiori/UI5, automating invoice creation and reducing manual effort by 30%.
- Built responsive UI using SAP Business Application Studio (BAS), handling 20+ user inputs efficiently.
- Engineered backend logic to process invoice data, improving processing speed and reducing errors.
- Automated transport request processing, reducing manual intervention and improving workflow efficiency.

Fuel flux February 2024

- Designed a slot booking system for CNG stations, reducing customer wait times by 25% .
- Analyzed user feedback and identified 3 major bottlenecks in the refueling process, implementing targeted improvements.
- Led a project to revamp the company's data visualization strategy, improving the user experience and navigation; this resulted in 300+ users now using the new platform.
- Collaborated with a team of 3-4 members to deliver the solution, improving coordination and execution.

SAP Fiori OData Integration September 2025

- Integrated SAP OData services with SAP Fiori frontend to enable real-time data interaction across 3+ modules.
- Enabled CRUD operations (Create, Read, Update, Delete) to manage application data efficiently.
- Created real-time data visualization features, improving decision-making speed.
- Optimized frontend-backend integration, enhancing system performance and user interactivity.

SAP TRAINING & CERTIFICATION

SAP Certified Associate @ Back-End Developer ABAP Cloud	July 2025
GenAI-Powered Data Analytics @ GenAI-Powered Data Analytics Job Simulation by Tata on Forage	September 2025
Team Leader @ hack 'o' clock, Greater Noida 2025	April 2025
Tech Expo participant @ Fuel Flux Team Project Tech expo, Parul university 2025	February 2025
Graphic Designer @ Internshala march 2024	March 2024
Campus Ambassador @ Pregrad [Campus Ambassador]	February 2024

RESPONSIBILITIES & ACHIEVEMENTS

Top 100 Finalist @ Innovators Squad [hack 'o' clock, Greater Noida]	April 2025
Top 10 finalist @ Fuel flux [Tech Expo, Parul University]	February 2025
Coordinator @ Parul University [Vadodara, India]	2024-present
Campus Ambassador @ Pregrad [Vadodara, India]	February 2024
